Subject: - Request for renewal of our
friendship subscription.

Dear Paalak Paneer,

Hope this letter finds you well. We
met on 24 July 2024. From then till
now it has been a great experience
with you. I know I am not good at
expressing myself but today I will
share it all.

At first, I used to think that you were an introvert type of person and one who overthinks every little thing and one who gets angry very easily. So I used to talk to you by initiating small things like asking for choice of clothes. I used to be afraid while talking to you in the beginning. I never thought that our friendship will reach at this stage. I used to think a thousand times before talking to you but now see, touchwood we are good friends and I don't even think a single time before sharing anything with you. With time spent with you, I must say that you have a great personality and you are the best among all I met till now.

I know I have done several mistakes like asking for alcohol, mentioning past incidents again and again, annoying you again and again and recently that accident. In return, you remember that night when I talked about H.K. with you, you literally skipped your dinner that day and that day when I replied to your reels with negative replies, you

called me and one day when you came down on my single phone call and talked to me. I remember each and every detail like you came down midnight at your birthday on my one phone call. Talking to you always makes me feel lighter. We have been to various places together and had a lot of light and funny moments like that lip gloss one, Dandiya Night, scooty drives which I can say are golden memories of my life which I will never forget.

I tried gathering some photos to revisit some of those moments. Hope you will like it.

Remember we went together on fresher party of our juniors.

Then in biotech lab

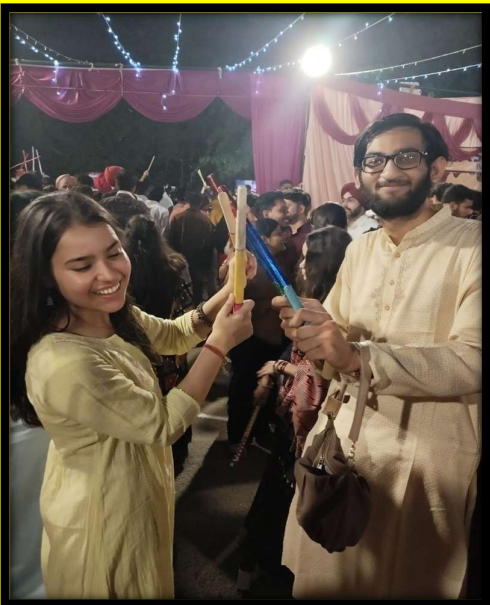

Remember we went to museum together

Recently we went to 17

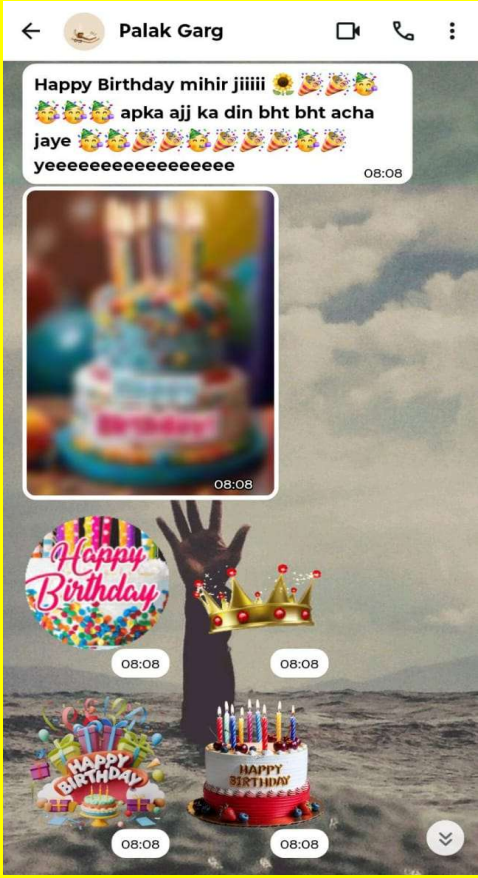

Remember Dandiya Night, I swear that night was total fun.

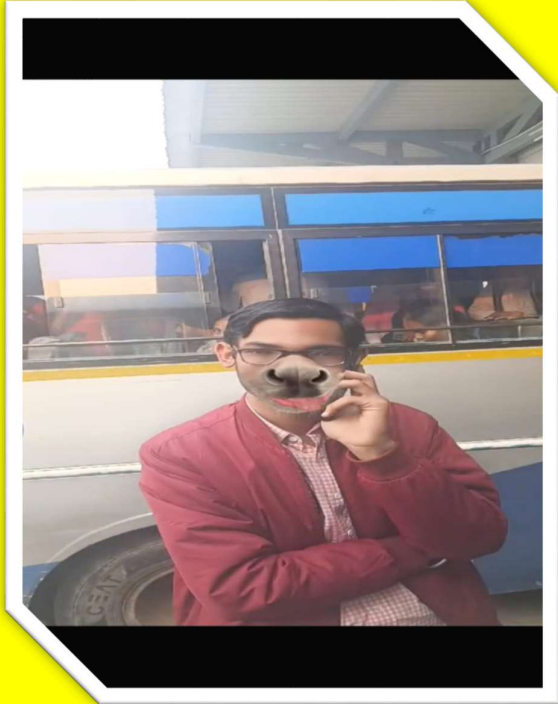

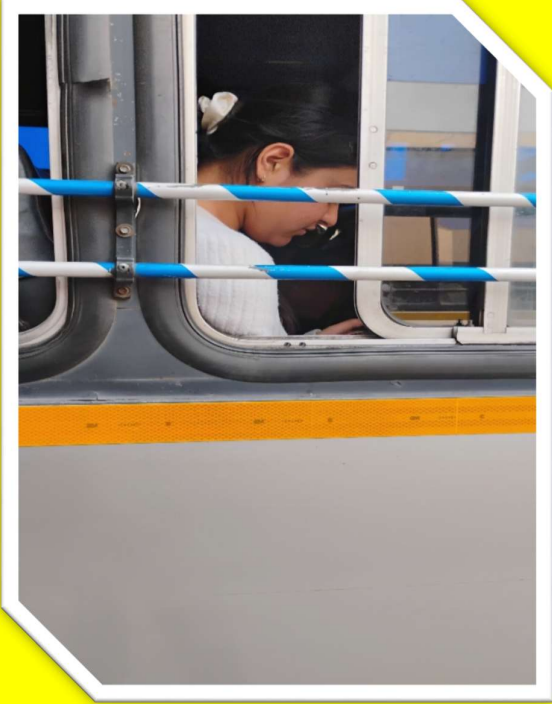

And of course your birthday, how can I forget that

And your wish on my birthday, I swear to God that stickers were the best, a wish I can never forget for my lifetime.

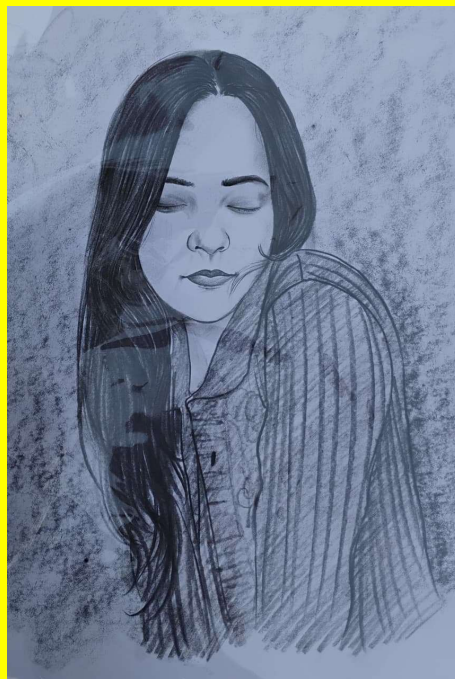

We went to Patiala together.

You gave me a gift on my birthday that was so special, I really appreciate your efforts.

Your portrait, that was amazing too

Then remember having momos, ice cream, pasta, soup etc. together.

This year was full of great experiences with you. Above are the some of the moments spent with you, each one of which is special and unforgettable. Maybe we should take more photos together so that I can add more here next time when I write a letter.

I will always regret missing your dance at our fresher party and I must say you were looking gorgeous that day.

For all this, I just want to say thanks to you and I can never repay some of the things that you have done for me and really they mean a lot to me.

Also want to say sorry for my each and every mistake and for every moment at which you were hurt because of me. I know that the recent mistake was not just a mistake, but I apologize from you and your parents and I ensure you that I will do whatever you say to remorse for it and will never repeat it and now I will say that the car driver must go to hell.

Your age is not just limited to 45, you will live 100 years still asking for lip gloss and with that cute expression of yours like

I promise that in the upcoming year I will try my best to give all the good experiences of life to you and most importantly as you say that after 4 years everyone will disperse but I promise you that I will never forget you and will be there for you always whenever you will need me just a phone call away.

You look so cute when you smile, I hope and I pray that your happiness lasts forever and all the evils in your life ends with the onset of this new year 2026.

At last, I wish you a very Happy New Year looking ahead for a great year with you, for having more adventures, great experiences of life with you.

I will pray to God for your happiness, good health and success in the upcoming year.

So, hoping for the lifetime subscription of your friendship.

Bohot English bol li, bas yaar basically yahi kehna chahta hun ki I am lucky to have a friend like you, never want to lose you, uss din accident ka jab bhi sochta hun toh tujhe imagine karke poori body aise darr jaati h jaisa ek baar ke liye sab khatam ho gaya ho.

Yaar tu kehti thi na aaj tujhse promise karta hun ki kabhi tujhe woh waala sticker bhejne par majboor nahi karunga, kabhi tujhse pange nahi loonga, woh koi kaam nahi karunga jiske liye tu mana karde ya tujhe bura lage aur promise karta hun ki har situation mein tere saath khada rahunga chahe kuch bhi ho jaaye.

Iss saal kaafi ache experience raha tere saath, umeed h agle saal bhi aise hi ache ache experiences and zindagi ke maze lete rahenge.

Ho sakta h yaar jyada likh diya ho, agar kuch bhi zyada lage toh just ignore it.
